

## Interim Management Report of Fund Performance

for the period ended February 29, 2020

All figures are reported in Canadian dollars unless otherwise noted.

This interim management report of fund performance contains financial highlights but does not contain either the interim financial report or annual financial statements of the investment fund. You can get a copy of the interim financial report or annual financial statements at your request, and at no cost, by calling toll-free at 1-888-888-3863, by writing to us at Renaissance Investments, 1500 Robert-Bourassa Boulevard, Suite 800, Montreal, QC, H3A 3S6, or by visiting our website at [www.renaissanceinvestments.ca](http://www.renaissanceinvestments.ca) or SEDAR at [www.sedar.com](http://www.sedar.com).

Unitholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

### Management Discussion of Fund Performance

#### Results of Operations

Axiom Balanced Income Portfolio (the *Portfolio*) invests in units of various Renaissance Private Pools (individually, an *Underlying Fund* and, collectively, the *Underlying Funds*) which can be found in the Top Positions table of the Summary of Investment Portfolio. The Portfolio's portfolio advisor is CIBC Asset Management Inc. (*CAMI*, the *Manager* or *Portfolio Advisor*). The commentary that follows provides a summary of the results of operations for the six-month period ended February 29, 2020. All dollar figures are expressed in thousands, unless otherwise indicated.

The Portfolio's net asset value decreased by 4% during the period, from \$120,507 as at August 31, 2019 to \$115,236 as at February 29, 2020. Net redemptions of \$6,367 were partially offset by positive investment performance, resulting in an overall decrease in net asset value.

Class A units of the Portfolio posted a return of 1.0% for the period. The Portfolio's primary benchmark, the FTSE Canada Universe Bond Index (the *primary benchmark*), returned 1.9% for the same period. The Portfolio's blended benchmark (the *blended benchmark*) comprises 60% FTSE Canada Universe Bond Index, 12.2% S&P/TSX Composite Dividend Index, 10% S&P 500 Index, 8.8% S&P/TSX Composite Index, 6% MSCI EAFE Index and 3% MSCI Emerging Markets Index. The blended benchmark returned 1.8% for the same period. The blended benchmark closely reflects the asset classes in which the Portfolio invests, and is designed to provide a more useful comparative to the Portfolio's performance. The Portfolio's return is after the deduction of fees and expenses, unlike the primary and blended benchmarks' returns. See *Past Performance* for the returns of other classes of units offered by the Portfolio.

The Portfolio has a target asset allocation of 60.0% Canadian fixed income securities, 12.2% Canadian income-generating investments, 10.0% U.S. equities, 8.8% Canadian equities, 6.0% international equities and 3.0% emerging markets equities.

Recession concerns abated late in 2019 as economic growth improved and investors anticipated a reduction in trade frictions

between the U.S. and China. However, global recession concerns resurfaced in late February 2020 as COVID-19 disrupted supply chains between China and the rest of the world. The uncertain environment boosted the U.S. dollar, causing most currencies to weaken against it, while most currencies appreciated against the Canadian dollar. The world's central banks continued their accommodative monetary policies for much of the period.

The U.S. Federal Reserve Board continued to lower interest rates and resumed buying securities. This signalled to investors that it was ready to ensure sufficient liquidity in financial markets. The Bank of Canada (the *BoC*) held its target overnight interest rate steady at 1.75%, based on a robust labour market and strong inflation. However, the BoC became more cautious toward the end of the period as Canadian economic growth slowed and potential risks to the economy heightened. Canada's inflation rate held firm at close to the BoC's 2% target, partly as a result of rising food prices.

Canadian fixed income assets posted positive returns, with riskier assets generally outperforming. Canadian provincial bonds outperformed their federal counterparts, but both underperformed relative to Canadian corporate bonds. U.S. investment-grade corporate bonds outperformed Canadian corporate bonds while U.S. high-yield bonds underperformed.

In terms of equities, the Canadian equity market, including income-generating investments, had positive returns during the fourth quarter of 2019 in response to an improving macroeconomic backdrop. This ended a solid year, with 2019 marking the strongest annual return in Canada since 2009. However, with the rise of cases in the last week of February, COVID-19 concerns intensified and investors were considering a prolonged impact on global economic growth. The Canadian equity market declined, with energy producers and base metals companies being among the most affected as China's economy makes up a large portion of demand for numerous commodities.

Similarly, the U.S. equity market was resilient until the end of the period, with overall gains in the second half of 2019. High-valuation

growth stocks, particularly in the information technology sector, led the market higher in 2019. However, equities declined sharply in February. The COVID-19 outbreak weakened demand across the travel and tourism industry, and caused disruptions in global supply chains.

International equity markets also experienced significant volatility amid global economic concerns and the outbreak of COVID-19. Stocks rebounded decisively in the fourth quarter of 2019 on encouraging earnings reports, anticipation of a U.S.-China trade deal and improved prospects for an orderly exit for the U.K. from the European Union. They then declined sharply in February as fears of the potential economic impact of a widening COVID-19 outbreak weighed on investor confidence.

In emerging markets, the U.S. and China signed a “phase one” trade agreement in January, to which investors responded positively. However, the outbreak of COVID-19 subsequently led to a sharp decline across emerging market equities.

Renaissance U.S. Equity Private Pool was the most significant detractor from the Portfolio’s performance relative to the blended benchmark, followed by Renaissance Equity Income Private Pool and Renaissance Canadian Equity Private Pool.

Renaissance International Equity Private Pool was the most significant contributor to the Portfolio’s performance relative to the blended benchmark, followed by Renaissance Canadian Fixed Income Private Pool and Renaissance Emerging Markets Equity Private Pool.

### **Recent Developments**

The composition of the Independent Review Committee (*IRC*) changed. Don Hunter and Merle Kriss retired effective April 26, 2020. David Forster and Deborah Leckman were appointed as members of the IRC effective April 27, 2020.

The outbreak of COVID-19 (the disease caused by a new coronavirus) in China in December 2019, and its subsequent spread and designation as a global pandemic, has caused a slowdown in global economic activity and sustained market volatility. This has impacted global markets, with the most significant valuation changes occurring since the end of the review period. This has affected, or could affect, the performance of the Portfolio in an adverse manner.

### **Related Party Transactions**

CIBC and its affiliates have the following roles and responsibilities with respect to the Portfolio, and receive the fees described below in connection with their roles and responsibilities.

#### *Manager, Trustee, and Portfolio Advisor of the Portfolio*

CAMI, a wholly-owned subsidiary of CIBC, is the Portfolio’s Manager, Trustee, and Portfolio Advisor. As Manager, CAMI receives management fees with respect to the Portfolio’s day-to-day business and operations, calculated based on the net asset value of each respective class of units of the Portfolio as described in *Management Fees*. As Trustee, CAMI holds title to the Portfolio’s property (cash and securities) on behalf of its unitholders. As Portfolio Advisor, CAMI provides, or arranges to provide, investment advice and portfolio management services to the Portfolio. CAMI also compensates

dealers in connection with their marketing activities regarding the Portfolio. From time to time, CAMI may invest in units of the Portfolio.

#### *Distributor*

Dealers and other firms sell units of the Portfolio to investors. These dealers and other firms include CAMI’s related dealers such as the CIBC Investor’s Edge discount brokerage division of CIBC Investor Services Inc. (*CIBC ISI*), the CIBC Imperial Service division of CIBC ISI, and the CIBC Wood Gundy division of CIBC World Markets Inc. (*CIBC WM*). CIBC ISI and CIBC WM are wholly-owned subsidiaries of CIBC.

CAMI may pay sales commissions and trailing commissions to these dealers and firms in connection with the sale of units of the Portfolio. These dealers and other firms may pay a portion of these sales commissions and trailing commissions to their advisors who sell units of the Portfolio to investors.

#### *Portfolio Transactions*

The Portfolio may undertake currency and currency derivative transactions where CIBC WM, CIBC World Markets Corp., or any affiliate of CIBC is the counterparty (the *Related Party Transactions*) in reliance on the standing instructions issued by the IRC.

At least annually, the IRC reviews the Related Party Transactions for which they have issued standing instructions. The IRC is required to advise the Canadian securities regulatory authorities, after a matter has been referred to or reported to it by the Manager, if it determines that an investment decision was not made in accordance with conditions imposed by securities legislation or the IRC in any Related Party Transactions requiring its approval.

#### *Custodian*

CIBC Mellon Trust Company is the custodian of the Portfolio (the *Custodian*). The Custodian holds all cash and securities for the Portfolio and ensures that those assets are kept separate from any other cash or securities that the custodian might be holding. The Custodian also provides other services to the Portfolio including record-keeping and processing foreign exchange transactions. The fees and spreads for services of the Custodian are paid by CAMI and charged to the Portfolio on a recoverable basis. CIBC owns a 50% interest in the Custodian.

#### *Service Provider*

CIBC Mellon Global Securities Services Company (*CIBC GSS*) provides certain services to the Portfolio, including fund accounting and reporting, and portfolio valuation. Such servicing fees are paid by the Manager, and charged to the Portfolio on a recoverable basis. CIBC indirectly owns a 50% interest in CIBC GSS.

## Axiom Balanced Income Portfolio

### Financial Highlights

The following tables show selected key financial information about the Portfolio and are intended to help you understand the Portfolio's financial performance for the period ended February 29, 2020 and August 31 of any other period(s) shown.

#### The Portfolio's Net Assets per Unit<sup>1</sup> - Class A Units

	2020	2019	2018	2017	2016	2015
<b>Net Assets, beginning of period</b>	\$ 13.39	\$ 13.20	\$ 12.92	\$ 12.84	\$ 12.41	\$ 12.54
<b>Increase (decrease) from operations:</b>						
Total revenue	\$ 0.16	\$ 0.41	\$ 0.42	\$ 0.38	\$ 0.38	\$ 0.40
Total expenses	(0.14)	(0.26)	(0.27)	(0.27)	(0.26)	(0.26)
Realized gains (losses) for the period	0.20	0.38	0.52	0.39	0.35	0.37
Unrealized gains (losses) for the period	(0.10)	0.07	(0.11)	(0.23)	0.19	(0.36)
<b>Total increase (decrease) from operations<sup>2</sup></b>	\$ 0.12	\$ 0.60	\$ 0.56	\$ 0.27	\$ 0.66	\$ 0.15
<b>Distributions:</b>						
From income (excluding dividends)	\$ 0.02	\$ 0.03	\$ 0.05	\$ 0.03	\$ 0.01	\$ 0.04
From dividends	0.06	0.06	0.04	0.06	—	0.06
From capital gains	—	0.33	0.20	0.09	0.25	0.17
Return of capital	—	—	—	—	—	—
<b>Total Distributions<sup>3</sup></b>	\$ 0.08	\$ 0.42	\$ 0.29	\$ 0.18	\$ 0.26	\$ 0.27
<b>Net Assets, end of period</b>	\$ 13.44	\$ 13.39	\$ 13.20	\$ 12.92	\$ 12.84	\$ 12.41

<sup>1</sup> This information is derived from the Portfolio's audited annual and unaudited interim financial statements.

<sup>2</sup> Net assets and distributions are based on the actual number of units outstanding at the relevant time. The total increase (decrease) from operations is based on the weighted average number of units outstanding during the period.

<sup>3</sup> Distributions were paid in cash, reinvested in additional units of the Portfolio, or both.

#### Ratios and Supplemental Data - Class A Units

	2020	2019	2018	2017	2016	2015
<b>Total Net Asset Value (000s)<sup>4</sup></b>	\$ 82,311	\$ 84,669	\$ 89,801	\$ 90,578	\$ 104,635	\$ 111,842
<b>Number of Units Outstanding<sup>4</sup></b>	6,122,759	6,325,325	6,801,551	7,009,290	8,151,109	9,013,433
<b>Management Expense Ratio<sup>5</sup></b>	2.03% *	2.04%	2.04%	2.08%	2.08%	2.08%
<b>Management Expense Ratio before waivers or absorptions<sup>6</sup></b>	2.05% *	2.04%	2.04%	2.12%	2.08%	2.09%
<b>Trading Expense Ratio<sup>7</sup></b>	0.04% *	0.05%	0.05%	0.05%	0.06%	0.07%
<b>Portfolio Turnover Rate<sup>8</sup></b>	5.19%	13.97%	11.95%	10.91%	13.11%	16.54%
<b>Net Asset Value per Unit</b>	\$ 13.44	\$ 13.39	\$ 13.20	\$ 12.92	\$ 12.84	\$ 12.41

\* Ratio has been annualized.

<sup>4</sup> This information is presented as at February 29, 2020 and August 31 of the period(s) shown.

<sup>5</sup> Management expense ratio is based on the total expenses of the fund (excluding commissions and other portfolio transaction costs), incurred by or allocated to a class of units for the period shown, expressed as an annualized percentage of the daily average net asset value of that class during the period.

<sup>6</sup> The decision to waive and/or absorb management fees and operating expenses is at the discretion of the Manager. The practice of waiving and/or absorbing management fees and operating expenses may continue indefinitely or may be terminated at any time without notice to unitholders.

<sup>7</sup> The trading expense ratio represents total commissions and other portfolio transaction costs before income taxes expressed as an annualized percentage of the daily average net asset value during the period.

<sup>8</sup> The portfolio turnover rate indicates how actively the portfolio advisor manages the portfolio investments. A portfolio turnover rate of 100% is equivalent to a fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a portfolio turnover rate in a period, the greater the trading costs payable by a fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

<sup>4</sup> This information is presented as at February 29, 2020 and August 31 of the period(s) shown.

<sup>5</sup> Management expense ratio is based on the total expenses of the fund (excluding commissions and other portfolio transaction costs), incurred by or allocated to a class of units for the period shown, expressed as an annualized percentage of the daily average net asset value of that class during the period.

<sup>6</sup> The decision to waive and/or absorb management fees and operating expenses is at the discretion of the Manager. The practice of waiving and/or absorbing management fees and operating expenses may continue indefinitely or may be terminated at any time without notice to unitholders.

<sup>7</sup> The trading expense ratio represents total commissions and other portfolio transaction costs before income taxes expressed as an annualized percentage of the daily average net asset value during the period.

<sup>8</sup> The portfolio turnover rate indicates how actively the portfolio advisor manages the portfolio investments. A portfolio turnover rate of 100% is equivalent to a fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a portfolio turnover rate in a period, the greater the trading costs payable by a fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

<b>Net Assets, end of period</b>	\$ 13.71	\$ 13.73	\$ 13.31	\$ 13.04	\$ 12.84	\$ 12.28

<sup>1</sup> This information is derived from the Portfolio's audited annual and unaudited interim financial statements.

<sup>2</sup> Net assets and distributions are based on the actual number of units outstanding at the relevant time. The total increase (decrease) from operations is based on the weighted average number of units outstanding during the period.

<sup>3</sup> Distributions were paid in cash, reinvested in additional units of the Portfolio, or both.

### Ratios and Supplemental Data - Class F Units

	2020	2019	2018	2017	2016	2015
<b>Total Net Asset Value (000s)<sup>4</sup></b>	\$ 9,029	\$ 9,322	\$ 9,475	\$ 5,349	\$ 3,323	\$ 3,123
<b>Number of Units Outstanding<sup>4</sup></b>	658,587	678,915	712,104	410,181	258,709	254,289
<b>Management Expense Ratio<sup>5</sup></b>	0.93%*	0.92%	0.91%	1.20%	1.16%	1.18%
<b>Management Expense Ratio before waivers or absorptions<sup>6</sup></b>	1.23%*	1.21%	1.15%	1.20%	1.21%	1.18%
<b>Trading Expense Ratio<sup>7</sup></b>	0.04%*	0.05%	0.05%	0.05%	0.06%	0.07%
<b>Portfolio Turnover Rate<sup>8</sup></b>	5.19%	13.97%	11.95%	10.91%	13.11%	16.54%
<b>Net Asset Value per Unit</b>	\$ 13.71	\$ 13.73	\$ 13.31	\$ 13.04	\$ 12.84	\$ 12.28

\* Ratio has been annualized.

<sup>4</sup> This information is presented as at February 29, 2020 and August 31 of the period(s) shown.

<sup>5</sup> Management expense ratio is based on the total expenses of the fund (excluding commissions and other portfolio transaction costs), incurred by or allocated to a class of units for the period shown, expressed as an annualized percentage of the daily average net asset value of that class during the period.

<sup>6</sup> The decision to waive and/or absorb management fees and operating expenses is at the discretion of the Manager. The practice of waiving and/or absorbing management fees and operating expenses may continue indefinitely or may be terminated at any time without notice to unitholders.

<sup>7</sup> The trading expense ratio represents total commissions and other portfolio transaction costs before income taxes expressed as an annualized percentage of the daily average net asset value during the period.

<sup>8</sup> The portfolio turnover rate indicates how actively the portfolio advisor manages the portfolio investments. A portfolio turnover rate of 100% is equivalent to a fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a portfolio turnover rate in a period, the greater the trading costs payable by a fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

There is not necessarily a relationship between a high turnover rate and the performance of a fund.

## Axiom Balanced Income Portfolio

### Management Fees

The Portfolio pays CAMI an annual management fee to cover the costs of managing the Portfolio. Management fees are based on the Portfolio's net asset value and are calculated daily and paid monthly. Management fees are paid to CAMI in consideration for providing, or arranging for the provision of, management, distribution, and portfolio advisory services. Advertising and promotional expenses, office overhead expenses related to the Manager's activities, and trailing commissions are paid by CAMI out of the management fees received from the Portfolio. The Portfolio is required to pay applicable taxes on the management fees paid to CAMI. Refer to the simplified prospectus for the annual management fee rate for each class of units. No management fees or incentive fees are payable by the Portfolio that, to a reasonable person, would duplicate a fee payable by an Underlying Fund for the same service.

The following table shows a breakdown of the services received in consideration of the management fees, as a percentage of the management fees collected from the Portfolio for the period ended February 29, 2020. These amounts do not include waived fees or absorbed expenses.

	Class A Units	Class T4 Units	Class T6 Units	Class T8 Units	Select Class Units	Select-T4 Class Units
Sales and trailing commissions paid to dealers	58.66%	44.19%	0.00%	53.09%	52.14%	30.74%
General administration, investment advice, and profit	41.34%	55.81%	100.00%	46.91%	47.86%	69.26%

	Select-T6 Class Units	Elite Class Units	Elite-T4 Class Units	Class F Units	Class FT4 Units	Class FT6 Units
Sales and trailing commissions paid to dealers	51.11%	46.90%	46.64%	0.00%	0.00%	0.00%
General administration, investment advice, and profit	48.89%	53.10%	53.36%	100.00%	100.00%	100.00%

### Past Performance

The performance data provided assumes reinvestment of distributions only and does not take into account sales, redemption, distribution, or other optional charges payable by any unitholder that would have reduced returns. Past performance does not necessarily indicate how a fund will perform in the future.

The Portfolio's returns are after the deduction of fees and expenses, and the difference in returns between classes of units is primarily due to differences in the management expense ratio. See *Financial Highlights* section for the management expense ratio.

### Year-by-Year Returns

The bar charts show the annual performance of each class of units of the Portfolio for each of the periods shown, and illustrate how the performance has changed from period to period. The bar charts show, in percentage terms, how much an investment made on September 1 would have increased or decreased by August 31, unless otherwise indicated.

**A note on forward-looking statements**

The management report of fund performance may contain forward-looking statements. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates”, or other similar wording. In addition, any statements that may be made concerning future performance, strategies, or prospects and possible future actions taken by the fund, are also forward-looking statements. Forward-looking statements are not guarantees of future performance. These statements involve known and unknown risks, uncertainties, and other factors that may cause the actual results and achievements of the fund to differ materially from those expressed or implied by such statements. Such factors include, but are not limited to: general economic, market, and business conditions; fluctuations in securities prices, interest rates, and foreign currency exchange rates; changes in government regulations; and catastrophic events.

The above list of important factors that may affect future results is not exhaustive. Before making any investment decisions, we encourage you to consider these and other factors carefully. CIBC Asset Management Inc. does not undertake, and specifically disclaims, any obligation to update or revise any forward-looking statements, whether as a result of new information, future developments, or otherwise prior to the release of the next management report of fund performance.
