

Interim Management Report of Fund Performance

for the period ended February 29, 2020

All figures are reported in Canadian dollars unless otherwise noted.

This interim management report of fund performance contains financial highlights but does not contain either the interim financial report or annual financial statements of the investment fund. You can get a copy of the interim financial report or annual financial statements at your request, and at no cost, by calling toll-free at 1-888-888-FUND (3863), by writing to us at Renaissance Investments, 1500 Robert-Bourassa Boulevard, Suite 800, Montreal, QC, H3A 3S6, or by visiting our website at www.renaissanceinvestments.ca or SEDAR at www.sedar.com.

Unitholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

Management Discussion of Fund Performance

Results of Operations

Renaissance Canadian Small-Cap Fund's (the *Fund*) portfolio advisor is CIBC Asset Management Inc. (*CAMI*, the *Manager* or *Portfolio Advisor*). The commentary that follows provides a summary of the results of operations for the six-month period ended February 29, 2020. All dollar figures are expressed in thousands, unless otherwise indicated.

The Fund's net asset value decreased by 15% during the period, from \$98,327 as at August 31, 2019 to \$83,711 as at February 29, 2020. Net redemptions of \$11,467 and negative investment performance resulted in an overall decrease in net asset value.

Class A units of the Fund posted a return of -4.4% for the period. The Fund's benchmark, the S&P/TSX Small Cap Index (the *benchmark*), returned -9.6% for the same period. The Fund's return is after the deduction of fees and expenses, unlike the benchmark's return. See *Past Performance* for the returns of other classes of units offered by the Fund.

During the period, the Bank of Canada (the *BoC*) held its target overnight interest rate steady at 1.75%, citing a robust labour market and strong inflation. However, the BoC was more cautious toward the end of the period as Canadian economic growth slowed and potential risks to the economy heightened. Canada's inflation rate held firm at close to the BoC's 2% target, partly as a result of rising food prices. The Canadian labour market was robust. The economy added jobs, while the unemployment rate remained close to 40-year lows. Canadian economic growth weakened and business investment and exports both declined. Overall, the Canadian economy was impacted by strikes (automotive and rail) and pipeline shutdowns.

The U.S. and China agreed on a "phase one" trade deal. While outstanding issues still remained unresolved, both countries have incentives to put their differences aside for the foreseeable future. The U.K. came to an agreement with the European Union about its exit.

Fears of the economic impact of the COVID-19 outbreak in China, which spread to other parts of the globe, weighed on investor confidence in the final weeks of February. Uncertainty over its impact

drove risk premiums higher in late February, leading to a broad-based global stock market decline.

Canadian small-capitalization equities underperformed the broader Canadian equity market partly as a result of the small-cap market having a high exposure to the struggling energy sector.

Security selection in the health care, financials and materials sectors contributed to the Fund's performance. Outperformance in the health care sector was largely driven by holdings in Andlauer Healthcare Group Inc. and Akumin Inc. Performance in the financials sector was largely attributable to a holding in Trisura Group Ltd. Within the materials sector, exposure to K92 Mining Inc. was the most significant contributor to performance.

Individual contributors to the Fund's performance included holdings in Trisura, Andlauer and AltaGas Canada Inc. Trisura continued to execute operationally, particularly with their U.S. expansion strategy. Andlauer had a successful initial public offering (*IPO*) in December 2019. AltaGas was subject to a take-over bid at a 31% premium. The company has been a core holding within the Fund, and the stock has increased by more than 130% since its IPO in October 2018.

Stock selection in the communication services sector detracted from the Fund's performance, driven by a holding in Kew Media Group Inc. A moderate underweight allocation to the real estate sector detracted from performance, primarily as a result of a slight underweight allocation to the apartment real estate investment trust (*REIT*) segment, which outperformed. Stock selection in the energy sector also detracted from performance. This was primarily attributable to holdings in North American Construction Group Ltd. and Wolverine Energy and Infrastructure Inc.

Individual detractors from performance included Kew Media, North American Construction and SEMAFO Inc. Kew Media reported a challenging operational quarter combined with the termination of its CFO after it was learned that he provided inaccurate information to the company lenders and auditors. North American Construction was

impacted by negative sentiment within the energy sector. SEMAFO continued to face security issues in Burkina Faso.

A new holding in Andlauer was added to the Fund. The company operates in the niche industry of health care logistics, and has high barriers to entry driven by stringent regulatory requirements. European Residential REIT, a Canadian apartment REIT focused on the Netherlands multi-family residential market, was also added to the Fund. The Netherlands has strong market dynamics, including strong population growth and tight supply conditions, which should support above-average rent growth.

The Fund's existing holding in Minto Apartment REIT was increased. The company has a strong portfolio in key urban locations, development expertise and a solid management team that the Portfolio Advisor views as underappreciated by the market.

Dirtt Environmental Solutions Ltd. was eliminated after the Portfolio Advisor learned of new competitors and changing dynamics in the prefabricated interior construction industry. Pinnacle Renewable Energy Inc. was trimmed as the stock recovered, while industry dynamics related to the supply side remained challenged.

Recent Developments

The composition of the Independent Review Committee (*IRC*) changed. Don Hunter and Merle Kriss retired effective April 26, 2020. David Forster and Deborah Leckman were appointed as members of the IRC effective April 27, 2020.

The outbreak of COVID-19 (the disease caused by a new coronavirus) in China in December 2019, and its subsequent spread and designation as a global pandemic, has caused a slowdown in global economic activity and sustained market volatility. This has impacted global markets, with the most significant valuation changes occurring since the end of the review period. This has affected, or could affect, the performance of the Fund in an adverse manner.

Related Party Transactions

CIBC and its affiliates have the following roles and responsibilities with respect to the Fund, and receive the fees described below in connection with their roles and responsibilities.

Manager, Trustee, and Portfolio Advisor of the Fund

CAMI, a wholly-owned subsidiary of CIBC, is the Fund's Manager, Trustee, and Portfolio Advisor. As Manager, CAMI receives management fees with respect to the Fund's day-to-day business and operations, calculated based on the net asset value of each respective class of units of the Fund as described in *Management Fees*. As Trustee, CAMI holds title to the Fund's property (cash and securities) on behalf of its unitholders. As Portfolio Advisor, CAMI provides, or arranges to provide, investment advice and portfolio management services to the Fund. CAMI also compensates dealers in connection with their marketing activities regarding the Fund. From time to time, CAMI may invest in units of the Fund.

Distributor

Dealers and other firms sell units of the Fund to investors. These dealers and other firms include CAMI's related dealers such as the CIBC Investor's Edge discount brokerage division of CIBC Investor Services Inc. (*CIBC ISI*), the CIBC Imperial Service division of CIBC ISI, and the CIBC Wood Gundy division of CIBC World Markets Inc. (*CIBC WM*). CIBC ISI and CIBC WM are wholly-owned subsidiaries of CIBC.

CAMI may pay sales commissions and trailing commissions to these dealers and firms in connection with the sale of units of the Fund. These dealers and other firms may pay a portion of these sales commissions and trailing commissions to their advisors who sell units of the Fund to investors.

Brokerage Arrangements and Soft Dollars

The Portfolio Advisor makes decisions, including the selection of markets and dealers and the negotiation of commissions, with respect to the purchase and sale of portfolio securities, certain derivative products and the execution of portfolio transactions. Brokerage business may be allocated by the Portfolio Advisor to CIBC WM and CIBC World Markets Corp., each a subsidiary of CIBC. CIBC WM and CIBC World Markets Corp. may also earn spreads on the sale of fixed income securities, other securities, and certain derivative products to the Fund. A spread is the difference between the bid and ask prices for a security in the applicable marketplace, with respect to the execution of portfolio transactions. The spread will differ based upon various factors such as the nature and liquidity of the security.

Dealers, including CIBC WM and CIBC World Markets Corp., may furnish goods and services, other than order execution, when CAMI processes trades through them (referred to in the industry as "soft-dollar" arrangements). These goods and services are paid for with a portion of brokerage commissions and assist CAMI with investment decision-making services for the Fund or relate directly to the execution of portfolio transactions on behalf of the Fund.

The fees and spreads for services of the Custodian directly related to the execution of portfolio transactions by the Fund are paid by CAMI and/or dealer(s) directed by CAMI, up to the amount of the credits generated under soft dollar arrangements from trading on behalf of the Fund during that month.

In addition, the Manager may enter into commission recapture arrangements with certain dealers with respect to the Fund. Any commission recaptured will be paid to the Fund.

During the period, the Fund paid brokerage commissions and other fees of \$15,565 to CIBC WM; the Fund did not pay any brokerage commissions or other fees to CIBC World Markets Corp. Spreads associated with fixed income and other securities are not ascertainable and, for that reason, cannot be included when determining these amounts.

Fund Transactions

The Fund may enter into one or more of the following transactions (the *Related Party Transactions*) in reliance on the standing instructions issued by the IRC:

- invest in or hold equity securities of CIBC or issuers related to the Portfolio Advisor;
- invest in or hold non-exchange-traded debt securities of CIBC or an issuer related to CIBC, with terms-to-maturity of 365 days or more, issued in a primary offering and in the secondary market;
- make an investment in the securities of an issuer for which CIBC WM, CIBC World Markets Corp., or any affiliate of CIBC (a *Related Dealer*) acts as an underwriter during the offering of the securities or at any time during the 60-day period following the completion of the offering of such securities (in the case of a “private placement” offering, in accordance with the exemptive relief order granted by the Canadian securities regulatory authorities and in accordance with the policies and procedures relating to such investment);
- purchase equity and debt securities from or sell them to a Related Dealer, where it is acting as principal;
- undertake currency and currency derivative transactions where a Related Dealer is the counterparty;
- purchase securities from or sell securities to another investment fund or a managed account managed by the Manager or an affiliate of the Manager; and
- engage in in-specie transfers by receiving portfolio securities from, or delivering portfolio securities to, a managed account or another investment fund managed by the Manager or an affiliate, in respect of a purchase or redemption of units of the Fund, subject to certain conditions.

At least annually, the IRC reviews the Related Party Transactions for which they have issued standing instructions. The IRC is required to advise the Canadian securities regulatory authorities, after a matter has been referred to or reported to it by the Manager, if it determines that an investment decision was not made in accordance with conditions imposed by securities legislation or the IRC in any Related Party Transactions requiring its approval.

Custodian

CIBC Mellon Trust Company is the custodian of the Fund (the *Custodian*). The Custodian holds all cash and securities for the Fund and ensures that those assets are kept separate from any other cash or securities that the custodian might be holding. The Custodian also provides other services to the Fund including record-keeping and processing of foreign exchange transactions. The fees and spreads for services of the Custodian directly related to the execution of portfolio transactions by the Fund are paid by CAMI and/or dealer(s) directed by CAMI, up to the amount of the credits generated under soft dollar arrangements from trading on behalf of the Fund during that month. All other fees and spreads for the services of the Custodian are paid by the Manager and charged to the Fund on a recoverable basis. CIBC owns a 50% interest in the Custodian.

Service Provider

CIBC Mellon Global Securities Services Company (*CIBC GSS*) provides certain services to the Fund, including securities lending,

fund accounting and reporting, and portfolio valuation. Such servicing fees are paid by the Manager and charged to the Fund on a recoverable basis. CIBC indirectly owns a 50% interest in CIBC GSS.

Renaissance Canadian Small-Cap Fund

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the period ended February 29, 2020 and August 31 of any other period(s) shown.

The Fund's Net Assets per Unit¹ - Class A Units

	2020	2019	2018	2017	2016	2015

Total Distributions³	\$ —	\$ —	\$ 1.05	\$ 0.38	\$ 2.33	\$ 1.26
Net Assets, end of period	\$ 18.27	\$ 19.12	\$ 20.91	\$ 22.35	\$ 23.43	\$ 23.49

¹ This information is derived from the Fund's audited annual and unaudited interim financial statements.

² Net assets and distributions are based on the actual number of units outstanding at the relevant time. The total increase (decrease) from operations is based on the weighted average number of units outstanding during the period.

³ Distributions were paid in cash, reinvested in additional units of the Fund, or both.

Ratios and Supplemental Data - Class A Units

	2020	2019	2018	2017	2016	2015
Total Net Asset Value (000s)⁴	\$ 41,521	\$ 49,899	\$ 67,418	\$ 85,644	\$ 111,452	\$ 118,204
Number of Units Outstanding⁴	2,272,294	2,609,902	3,224,950	3,832,164	4,757,257	5,032,855
Management Expense Ratio⁵	2.34% [*]	2.34%	2.35%	2.36%	2.60%	2.59%
Management Expense Ratio before waivers or absorptions⁶	2.40% [*]	2.42%	2.35%	2.36%	2.66%	2.60%
Trading Expense Ratio⁷	0.39% [*]	0.46%	0.57%	0.33%	0.40%	0.27%
Portfolio Turnover Rate⁸	29.52%	61.92%	92.27%	57.41%	64.43%	47.42%
Net Asset Value per Unit	\$ 18.27	\$ 19.12	\$ 20.91	\$ 22.35	\$ 23.43	\$ 23.49

^{*} Ratio has been annualized.

⁴ This information is presented as at February 29, 2020 and August 31 of the period(s) shown.

⁵ Management expense ratio is based on the total expenses of the fund (excluding commissions and other portfolio transaction costs), incurred by or allocated to a class of units for the period shown, expressed as an annualized percentage of the daily average net asset value of that class during the period.

⁶ The decision to waive and/or absorb management fees and operating expenses is at the discretion of the Manager. The practice of waiving and/or absorbing management fees and operating expenses may continue indefinitely or may be terminated at any time without notice to unitholders.

⁷ The trading expense ratio represents total commissions and other portfolio transaction costs before income taxes expressed as an annualized percentage of the daily average net asset value during the period. Spreads associated with fixed income securities trading are not ascertainable and, for that reason, are not included in the trading expense ratio calculation.

⁸ The portfolio turnover rate indicates how actively the portfolio advisor and/or portfolio sub-advisor manages the portfolio investments. A portfolio turnover rate of 100% is equivalent to a fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a portfolio turnover rate in a period, the greater the trading costs payable by a fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

A portfolio turnover rate of 100% is equivalent to a fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a portfolio turnover rate in a period, the greater the trading costs payable by a fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

Management Fees

The Fund pays CAMI an annual management fee to cover the costs of managing the Fund. Management fees are based on the Fund's net asset value and are calculated daily and paid monthly. Management fees are paid to CAMI in consideration for providing, or arranging for the provision of, management, distribution, and portfolio advisory services. Advertising and promotional expenses, office overhead expenses related to the Manager's activities, and trailing commissions are paid by CAMI out of the management fees received from the Fund. The Fund is required to pay applicable taxes on the management fees paid to CAMI. Refer to the simplified prospectus for the annual management fee rate for each class of units.

For Class O units, the management fee is negotiated with and paid by, or as directed by, unitholders or dealers and discretionary managers on behalf of unitholders. Such Class O management fee will not exceed the Class F unit management fee rate.

The following table shows a breakdown of the services received in consideration of the management fees, as a percentage of the management fees collected from the Fund for the period ended February 29, 2020. These amounts do not include waived fees or absorbed expenses.

	Class A Units	Class F Units
Sales and trailing commissions paid to dealers	42.82%	0.00%
General administration, investment advice, and profit	57.18%	100.00%

Past Performance

The performance data provided assumes reinvestment of distributions only and does not take into account sales, redemption, distribution, or other optional charges payable by any unitholder that would have reduced returns. Past performance does not necessarily indicate how a fund will perform in the future.

The Fund's returns are after the deduction of fees and expenses, and the difference in returns between classes of units is primarily due to differences in the management expense ratio. See *Financial Highlights* section for the management expense ratio.

Year-by-Year Returns

These bar charts show the annual performance of each class of units of the Fund for each of the periods shown, and illustrate how the performance has changed from period to period. These bar charts show, in percentage terms, how an investment made on September 1 would have increased or decreased by August 31, unless otherwise indicated.

Class A Units

^a 2020 return is for the period from September 1, 2019 to February 29, 2020.

Renaissance Canadian Small-Cap Fund

Class F Units

A note on forward-looking statements

The management report of fund performance may contain forward-looking statements. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates”, or other similar wording. In addition, any statements that may be made concerning future performance, strategies, or prospects and possible future actions taken by the fund, are also forward-looking statements. Forward-looking statements are not guarantees of future performance. These statements involve known and unknown risks, uncertainties, and other factors that may cause the actual results and achievements of the fund to differ materially from those expressed or implied by such statements. Such factors include, but are not limited to: general economic, market, and business conditions; fluctuations in securities prices, interest rates, and foreign currency exchange rates; changes in government regulations; and catastrophic events.

The above list of important factors that may affect future results is not exhaustive. Before making any investment decisions, we encourage you to consider these and other factors carefully. CIBC Asset Management Inc. does not undertake, and specifically disclaims, any obligation to update or revise any forward-looking statements, whether as a result of new information, future developments, or otherwise prior to the release of the next management report of fund performance.
