### Management Discussion of Fund Performance

#### Results of Operations

Renaissance Global Growth Fund's (the *Fund*) portfolio sub-advisor is Walter Scott & Partners Limited (the *sub-advisor*). The commentary that follows provides a summary of the results of operations for the six-month period ended February 29, 2020. All dollar figures are expressed in thousands, unless otherwise indicated.

The Fund's net asset value increased by 8% during the period, from \$1,842,913 as at August 31, 2019 to \$1,994,126 as at February 29, 2020. Net sales of \$122,459 and positive investment performance resulted in an overall increase in net asset value.

Class A units of the Fund posted a return of 1.0% for the period. The Fund's benchmark, the MSCI World Index (the *benchmark*), returned 2.1% for the same period. The Fund's return is after the deduction of fees and expenses, unlike the benchmark's return. See *Past Performance* for the returns of other classes of units offered by the Fund.

A resumption of monetary stimulus, economic resilience in the U.S. and the lack of a recession helped to restore investor confidence over most of the six-month period. Global equities had a relatively positive period until the end, when investor concern regarding COVID-19 increased. Adding to the initially positive equity market environment was the de-escalation of the China-U.S. trade dispute. Indicative of this more optimistic outlook, growth-related stocks, including in the information technology sector, were favoured by investors.

However, while the U.S. retained its economic strength, the global backdrop remained uncertain. Weakness in manufacturing activity raised concerns that the relative buoyancy in private consumption would not be sustained if employment and wage trends weakened. Furthermore, valuations rose against the backdrop of tepid earnings growth. Investor optimism eventually gave way to concerns relating to the spread of the COVID-19 virus. There was increasing acknowledgment that the global economic outlook was being impacted by the outbreak.

Stock selection in the information technology sector and the U.S. detracted from the Fund's performance, as did exposure to the

consumer discretionary sector. Individual detractors from the Fund's performance included Stryker Corp. and Starbucks Corp.

Stryker had strong performance during the first nine months of 2019. Investors took profits following its announcement of plans to acquire Wright Medical Group NV. Starbucks announced in the first quarter of 2020 that COVID-19 would have an impact on its earnings this year, although the longer-term outlook remains solid.

Exposure to the Pacific region (excluding Japan) and the materials sector contributed to the Fund's performance. A slightly overweight allocation to the information technology sector also contributed to performance.

Individual contributors to the Fund's performance included Taiwan Semiconductor Manufacturing Co. Ltd. (TSMC), Adobe Inc. and CSL Ltd. The share price performance of TSMC, which is not a constituent of the benchmark, was strong in the latter part of 2019 as a result of positive management commentary and general improvement in sentiment regarding semiconductor companies.

Adobe announced strong fourth-quarter 2019 results, outperforming in both its key divisions. The company's spending on digital content is growing as better content, more effectively delivered, is now a critical point of competitive differentiation for almost all businesses.

CSL continued to display solid growth, with management announcing a slight upward revision in its outlook for the first half of fiscal 2020.

The sub-advisor added to the Fund's existing holding in Cognizant Technology Solutions Corp. in November 2019. Cognizant has had a challenging period, but management has now provided more detail around its improvement plan. Growth is the focus, which will require some reinvestment, but this will be reasonably well matched with cost efficiencies. The management team is looking to build a more streamlined and responsive structure. The sub-advisor has a favourable view of the company's comprehensive restructuring plan, and has added to what was a lower-weight holding.

Following the spin-out from Novartis AG, the Fund inherited a small holding in Alcon Inc. This was eliminated during the period.

### Recent Developments

The composition of the Independent Review Committee (*IRC*) changed. Don Hunter and Merle Kriss retired effective April 26, 2020. David Forster and Deborah Leckman were appointed as members of the IRC effective April 27, 2020.

The outbreak of COVID-19 (the disease caused by a new coronavirus) in China in December 2019, and its subsequent spread and designation as a global pandemic, has caused a slowdown in global economic activity and sustained market volatility. This has impacted global markets, with the most significant valuation changes occurring since the end of the review period. This has affected, or could affect, the performance of the Fund in an adverse manner.

Effective January 30, 2020, the annual management fee payable was reduced from 0.95% to 0.85% in respect of Class F units of the Fund.

### Related Party Transactions

CIBC and its affiliates have the following roles and responsibilities with respect to the Fund, and receive the fees described below in connection with their roles and responsibilities.

#### *Manager, Trustee, and Portfolio Advisor of the Fund*

CAMI, a wholly-owned subsidiary of CIBC, is the Fund's Manager, Trustee, and Portfolio Advisor. As Manager, CAMI receives management fees with respect to the Fund's day-to-day business and operations, calculated based on the net asset value of each respective class of units of the Fund as described in *Management Fees*. As Trustee, CAMI holds title to the Fund's property (cash and securities) on behalf of its unitholders. As Portfolio Advisor, CAMI provides, or arranges to provide, investment advice and portfolio management services to the Fund. CAMI also compensates dealers in connection with their marketing activities regarding the Fund. From time to time, CAMI may invest in units of the Fund.

#### *Distributor*

Dealers and other firms sell units of the Fund to investors. These dealers and other firms include CAMI's related dealers such as the CIBC Investor's Edge discount brokerage division of CIBC Investor Services Inc. (*CIBC ISI*), the CIBC Imperial Service division of CIBC ISI, and the CIBC Wood Gundy division of CIBC World Markets Inc. (*CIBC WM*). CIBC ISI and CIBC WM are wholly-owned subsidiaries of CIBC.

CAMI may pay sales commissions and trailing commissions to these dealers and firms in connection with the sale of units of the Fund. These dealers and other firms may pay a portion of these sales commissions and trailing commissions to their advisors who sell units of the Fund to investors.

#### *Brokerage Arrangements and Soft Dollars*

CAMI generally delegates trading and execution authority to the portfolio sub-advisors and does not, in its capacity as portfolio advisor,

receive any goods or services directly through soft dollar arrangements.

The Portfolio Advisor and any portfolio sub-advisors make decisions, including the selection of markets and dealers and the negotiation of commissions, with respect to the purchase and sale of portfolio securities, certain derivative products and the execution of portfolio transactions. Brokerage business may be allocated by the Portfolio Advisor and any portfolio sub-advisor to CIBC WM and CIBC World Markets Corp., each a subsidiary of CIBC. CIBC WM and CIBC World Markets Corp. may also earn spreads on the sale of fixed income securities, other securities, and certain derivative products to the Fund. A spread is the difference between the bid and ask prices for a security in the applicable marketplace, with respect to the execution of portfolio transactions. The spread will differ based upon various factors such as the nature and liquidity of the security.

Dealers, including CIBC WM and CIBC World Markets Corp., may furnish goods and services, other than order execution, to the Portfolio Advisor and any portfolio sub-advisors when they process trades through them (referred to in the industry as "soft-dollar" arrangements). These goods and services are paid for with a portion of the brokerage commissions and assist the Portfolio Advisor and any portfolio sub-advisor with investment decision-making services for the Fund or relate directly to the execution of portfolio transactions on behalf of the Fund. As per the terms of the portfolio sub-advisory agreements, such soft dollar arrangements are in compliance with applicable laws.

In addition, the Manager may enter into commission recapture arrangements with certain dealers with respect to the Fund. Any commission recaptured will be paid to the Fund.

During the period, the Fund did not pay any brokerage commissions or other fees to CIBC WM or CIBC World Markets Corp. Spreads associated with fixed income and other securities are not ascertainable and, for that reason, cannot be included when determining these amounts.

#### *Fund Transactions*

The Fund may enter into one or more of the following transactions (the *Related Party Transactions*) in reliance on the standing instructions issued by the IRC:

- invest in or hold equity securities of CIBC or issuers related to the Portfolio Advisor;
- invest in or hold non-exchange-traded debt securities of CIBC or an issuer related to CIBC, with terms-to-maturity of 365 days or more, issued in a primary offering and in the secondary market;
- make an investment in the securities of an issuer for which CIBC WM, CIBC World Markets Corp., or any affiliate of CIBC (a Related Dealer) acts as an underwriter during the offering of the securities or at any time during the 60-day period following the completion of the offering of such securities (in the case of a "private placement" offering, in accordance with the exemptive relief order granted by the Canadian securities regulatory authorities and in accordance with the policies and procedures relating to such investment);

- purchase equity and debt securities from or sell them to a Related Dealer, where it is acting as principal;
- undertake currency and currency derivative transactions where a Related Dealer is the counterparty;
- purchase securities from or sell securities to another investment fund or a managed account managed by the Manager or an affiliate of the Manager; and
- engage in in-specie transfers by receiving portfolio securities from, or delivering portfolio securities to, a managed account or another investment fund managed by the Manager or an affiliate, in respect of a purchase or redemption of units of the Fund, subject to certain conditions.

At least annually, the IRC reviews the Related Party Transactions for which they have issued standing instructions. The IRC is required to advise the Canadian securities regulatory authorities, after a matter has been referred to or reported to it by the Manager, if it determines that an investment decision was not made in accordance with conditions imposed by securities legislation or the IRC in any Related Party Transactions requiring its approval.

#### *Custodian*

CIBC Mellon Trust Company is the custodian of the Fund (the *Custodian*). The Custodian holds all cash and securities for the Fund and ensures that those assets are kept separate from any other cash or securities that the custodian might be holding. The Custodian also provides other services to the Fund including record-keeping and processing of foreign exchange transactions. The fees and spreads for services of the Custodian directly related to the execution of portfolio transactions by the Fund are paid by CAMI and/or dealer(s) directed by CAMI, up to the amount of the credits generated under soft dollar arrangements from trading on behalf of the Fund during that month. All other fees and spreads for the services of the Custodian are paid by the Manager and charged to the Fund on a recoverable basis. CIBC owns a 50% interest in the Custodian.

#### *Service Provider*

CIBC Mellon Global Securities Services Company (*CIBC GSS*) provides certain services to the Fund, including securities lending, fund accounting and reporting, and portfolio valuation. Such servicing fees are paid by the Manager and charged to the Fund on a recoverable basis. CIBC indirectly owns a 50% interest in CIBC GSS.

\* Ratio has been annualized.

<sup>4</sup> This information is presented as at February 29, 2020 and August 31 of the period(s) shown.

<sup>5</sup> Management expense ratio is based on the total expenses of the fund (excluding commissions and other portfolio transaction costs), incurred by or allocated to a class of units for the period shown, expressed as an annualized percentage of the daily average net asset value of that class during the period.

<sup>6</sup> The decision to waive and/or absorb management fees and operating expenses is at the discretion of the Manager. The practice of waiving and/or absorbing management fees and operating expenses may continue indefinitely or may be terminated at any time without notice to unitholders.

<sup>7</sup> The trading expense ratio represents total commissions and other portfolio transaction costs before income taxes expressed as an annualized percentage of the daily average net asset value during the period. Spreads associated with fixed income securities trading are not ascertainable and, for that reason, are not included in the trading expense ratio calculation.

<sup>8</sup> The portfolio turnover rate indicates how actively the portfolio advisor and/or portfolio sub-advisor manages the portfolio investments. A portfolio turnover rate of 100% is equivalent to a fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a portfolio turnover rate in a period, the greater the trading costs payable by a fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

## Management Fees

The Fund pays CAMI an annual management fee to cover the costs of managing the Fund. Management fees are based on the Fund's net asset value and are calculated daily and paid monthly. Management fees are paid to CAMI in consideration for providing, or arranging for the provision of, management, distribution, and portfolio advisory services. Advertising and promotional expenses, office overhead expenses, trailing commissions, and the fees of the portfolio sub-advisor are paid by CAMI out of the management fees received from the Fund. The Fund is required to pay applicable taxes on the management fees paid to CAMI. Refer to the simplified prospectus for the annual management fee rate for each class of units.

For Class O units, the management fee is negotiated with and paid by, or as directed by, unitholders or dealers and discretionary managers on behalf of unitholders. Such Class O management fee will not exceed the Class F unit management fee rate.

The following table shows a breakdown of the services received in consideration of the management fees, as a percentage of the management fees collected from the Fund for the period ended February 29, 2020. These amounts do not include waived fees or absorbed expenses.

	Class A Units	Class F Units
Sales and trailing commissions paid to dealers	53.87%	0.00%
General administration, investment advice, and profit	46.13%	100.00%

## Past Performance

The performance data provided assumes reinvestment of distributions only and does not take into account sales, redemption, distribution, or other optional charges payable by any unitholder that would have reduced returns. Past performance does not necessarily indicate how a fund will perform in the future.

The Fund's returns are after the deduction of fees and expenses, and the difference in returns between classes of units is primarily due to differences in the management expense ratio. See *Financial Highlights* section for the management expense ratio.

## Year-by-Year Returns

These bar charts show the annual performance of each class of units of the Fund for each of the periods shown, and illustrate how the performance has changed from period to period. These bar charts show, in percentage terms, how an investment made on September 1 would have increased or decreased by August 31, unless otherwise indicated.

**A note on forward-looking statements**

The management report of fund performance may contain forward-looking statements. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates”, or other similar wording. In addition, any statements that may be made concerning future performance, strategies, or prospects and possible future actions taken by the fund, are also forward-looking statements. Forward-looking statements are not guarantees of future performance. These statements involve known and unknown risks, uncertainties, and other factors that may cause the actual results and achievements of the fund to differ materially from those expressed or implied by such statements. Such factors include, but are not limited to: general economic, market, and business conditions; fluctuations in securities prices, interest rates, and foreign currency exchange rates; changes in government regulations; and catastrophic events.

The above list of important factors that may affect future results is not exhaustive. Before making any investment decisions, we encourage you to consider these and other factors carefully. CIBC Asset Management Inc. does not undertake, and specifically disclaims, any obligation to update or revise any forward-looking statements, whether as a result of new information, future developments, or otherwise prior to the release of the next management report of fund performance.
