

Interim Management Report of Fund Performance

for the period ended February 29, 2020

All figures are reported in Canadian dollars unless otherwise noted.

This interim management report of fund performance contains financial highlights but does not contain either the interim financial report or annual financial statements of the investment fund. You can get a copy of the interim financial report or annual financial statements at your request, and at no cost, by calling toll-free at 1-888-888-FUND (3863), by writing to us at Renaissance Investments, 1500 Robert-Bourassa Boulevard, Suite 800, Montreal, QC, H3A 3S6, or by visiting our website at www.renaissanceinvestments.ca or SEDAR at www.sedar.com.

Unitholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

Management Discussion of Fund Performance

Results of Operations

Renaissance Global Small-Cap Fund's (the *Fund*) portfolio sub-advisor is Wasatch Global Investors (the *sub-advisor*). The commentary that follows provides a summary of the results of operations for the six-month period ended February 29, 2020. All dollar figures are expressed in thousands, unless otherwise indicated.

The Fund's net asset value increased by 92% during the period, from \$54,562 as at August 31, 2019 to \$104,723 as at February 29, 2020. Net sales of \$52,167 were partially offset by slightly negative investment performance, resulting in an overall increase in net asset value. The increase in net asset value can be attributed to the Fund's relatively strong net sales during the period.

Class A units of the Fund posted a return of -0.4% for the period. The Fund's benchmark, the MSCI World Small-Cap Index (the *benchmark*), returned 0.1% for the same period. The Fund's return is after the deduction of fees and expenses, unlike the benchmark's return. See *Past Performance* for the returns of other classes of units offered by the Fund.

During the period, the outbreak of COVID-19 had a significant impact on financial markets. By late January 2020, most financial markets were down a few percentage points from their recent highs. Investors became increasingly concerned about the spread of the virus, the disruption of global supply chains and the resulting slowdown in global economic growth. In February 2020, equity losses continued as countries failed to contain COVID-19.

An agreement on a U.S.-China "phase one" trade deal was signed, raising expectations for improving relations between the world's two largest economies. In the U.K., the December general election result and the U.K.'s withdrawal from the European Union helped to dissipate some of the uncertainty that had affected the U.K. market for several years.

Japan's upper legislative house approved a U.S.-Japan trade deal, which went into effect in January. The deal will result in over US\$7

billion in tariffs on U.S. goods being reduced or removed in exchange for lower tariffs on Japanese industrial goods imported by the U.S.

Global small-capitalization equities underperformed broader equity markets as investors sought investments that they perceived as less risky during the spread of COVID-19.

Exposure to the consumer staples sector detracted from the Fund's performance. This was largely a result of stock selection, and the performance of two holdings within the Fund. Exposure to the consumer discretionary sector also detracted from performance. From a regional perspective, allocations to Hong Kong and the U.K. detracted from performance. Individual detractors from performance included Fevertree Drinks PLC, Vitasoy International Holdings Ltd. and Cantel Medical Corp.

U.K. company Fevertree continued to expand across Europe and in the U.S., and it is expected to experience increased competitive pressures. However, the sub-advisor believes the company is well positioned to benefit from trends in consumer habits. Investors reacted negatively to Vitasoy's plans to invest more heavily in its soy milk business to stave off competitive pressures and pave the way for future growth. Cantel's quarterly report showed that the company's medical segment faced challenges, including delayed product launches and increased competitive pressures.

Stock selection and a significant overweight allocation to the industrials sector which contributed to the Fund's performance. From a regional perspective, exposure to Taiwan contributed to performance, producing a double-digit gain. Exposure to Germany also contributed to the Fund's performance, primarily as a result of stock selection.

Individual contributors to the Fund's performance included Hypoport AG, Globant SA, Silergy Corp. and Kornit Digital Ltd.

Hypoport is a property financing intermediary between financial sales teams and credit institutions in Germany. The company achieved robust growth over the period. Globant benefited from rebounding sentiment toward Argentina. The migration of corporate clients to

digital platforms also benefited information technology service providers like Globant. Silergy's stock price fell during the latter half of 2018 and early 2019 amid sluggish demand. An increase in sales in May 2019 led to a rebound in the stock. Kornit has an opportunity to increase sales of its high-definition digital printing machines, according to the sub-advisor. The company's stock price rose amid optimism regarding the possibility of additional business through Amazon.com Inc.'s distribution channel.

The sub-advisor added several new holdings to the Fund during the period. Freshpet Inc. was added for its strong growth within the consumer staples sector. The company is actively expanding its capacity and the sub-advisor believes the company has potential to continue to increase its market share. Sugi Holdings Co. Ltd. is a holding company operating primarily in the retail drugstore market in Japan, a highly fragmented industry that is likely to continue to consolidate. The company, according to the sub-advisor, is well positioned to be one of the eventual leaders in the industry.

Nova Measuring Instruments Ltd. was also added. Following a large investment in new product development, the sub-advisor believes the company is well positioned to take advantage of its strong competitive position to grow. Existing holdings in Paylocity Holding Corp., Barnes Group Inc. and Five Below Inc. were increased during the period as the sub-advisor believed these companies had promising growth potential.

Old Dominion Freight Line Inc. and Exact Sciences Corp. were eliminated after substantial growth, and as their market capitalization exceeded the Fund's mandate. Pigeon Corp. was sold based on the sub-advisor's concerns about its ability to execute its business plan in China. Holdings in Euronet Worldwide Inc. and Globant were trimmed after strong performance. Cimpres PLC was reduced to adjust its weighting in the Fund.

Recent Developments

The composition of the Independent Review Committee (*IRC*) changed. Don Hunter and Merle Kriss retired effective April 26, 2020. David Forster and Deborah Leckman were appointed as members of the *IRC* effective April 27, 2020.

The outbreak of COVID-19 (the disease caused by a new coronavirus) in China in December 2019, and its subsequent spread and designation as a global pandemic, has caused a slowdown in global economic activity and sustained market volatility. This has impacted global markets, with the most significant valuation changes occurring since the end of the review period. This has affected, or could affect, the performance of the Fund in an adverse manner.

Related Party Transactions

CIBC and its affiliates have the following roles and responsibilities with respect to the Fund, and receive the fees described below in connection with their roles and responsibilities.

Manager, Trustee, and Portfolio Advisor of the Fund

CAMI, a wholly-owned subsidiary of CIBC, is the Fund's Manager, Trustee, and Portfolio Advisor. As Manager, CAMI receives

management fees with respect to the Fund's day-to-day business and operations, calculated based on the net asset value of each respective class of units of the Fund as described in *Management Fees*. As Trustee, CAMI holds title to the Fund's property (cash and securities) on behalf of its unitholders. As Portfolio Advisor, CAMI provides, or arranges to provide, investment advice and portfolio management services to the Fund. CAMI also compensates dealers in connection with their marketing activities regarding the Fund. From time to time, CAMI may invest in units of the Fund.

Distributor

Dealers and other firms sell units of the Fund to investors. These dealers and other firms include CAMI's related dealers such as the CIBC Investor's Edge discount brokerage division of CIBC Investor Services Inc. (*CIBC ISI*), the CIBC Imperial Service division of CIBC ISI, and the CIBC Wood Gundy division of CIBC World Markets Inc. (*CIBC WM*). CIBC ISI and CIBC WM are wholly-owned subsidiaries of CIBC.

CAMI may pay sales commissions and trailing commissions to these dealers and firms in connection with the sale of units of the Fund. These dealers and other firms may pay a portion of these sales commissions and trailing commissions to their advisors who sell units of the Fund to investors.

Brokerage Arrangements and Soft Dollars

CAMI generally delegates trading and execution authority to the portfolio sub-advisors and does not, in its capacity as portfolio advisor, receive any goods or services directly through soft dollar arrangements.

The Portfolio Advisor and any portfolio sub-advisors make decisions, including the selection of markets and dealers and the negotiation of commissions, with respect to the purchase and sale of portfolio securities, certain derivative products and the execution of portfolio transactions. Brokerage business may be allocated by the Portfolio Advisor and any portfolio sub-advisor to CIBC WM and CIBC World Markets Corp., each a subsidiary of CIBC. CIBC WM and CIBC World Markets Corp. may also earn spreads on the sale of fixed income securities, other securities, and certain derivative products to the Fund. A spread is the difference between the bid and ask prices for a security in the applicable marketplace, with respect to the execution of portfolio transactions. The spread will differ based upon various factors such as the nature and liquidity of the security.

Dealers, including CIBC WM and CIBC World Markets Corp., may furnish goods and services, other than order execution, to the Portfolio Advisor and any portfolio sub-advisors when they process trades through them (referred to in the industry as "soft-dollar" arrangements). These goods and services are paid for with a portion of the brokerage commissions and assist the Portfolio Advisor and any portfolio sub-advisor with investment decision-making services for the Fund or relate directly to the execution of portfolio transactions on behalf of the Fund. As per the terms of the portfolio sub-advisory agreements, such soft dollar arrangements are in compliance with applicable laws.

In addition, the Manager may enter into commission recapture arrangements with certain dealers with respect to the Fund. Any commission recaptured will be paid to the Fund.

During the period, the Fund did not pay any brokerage commissions or other fees to CIBC WM or CIBC World Markets Corp. Spreads associated with fixed income and other securities are not ascertainable and, for that reason, cannot be included when determining these amounts.

Fund Transactions

The Fund may enter into one or more of the following transactions (the *Related Party Transactions*) in reliance on the standing instructions issued by the IRC:

- invest in or hold equity securities of CIBC or issuers related to the Portfolio Advisor;
- invest in or hold non-exchange-traded debt securities of CIBC or an issuer related to CIBC, with terms-to-maturity of 365 days or more, issued in a primary offering and in the secondary market;
- make an investment in the securities of an issuer for which CIBC WM, CIBC World Markets Corp., or any affiliate of CIBC (a Related Dealer) acts as an underwriter during the offering of the securities or at any time during the 60-day period following the completion of the offering of such securities (in the case of a “private placement” offering, in accordance with the exemptive relief order granted by the Canadian securities regulatory authorities and in accordance with the policies and procedures relating to such investment);
- purchase equity and debt securities from or sell them to a Related Dealer, where it is acting as principal;
- undertake currency and currency derivative transactions where a Related Dealer is the counterparty;
- purchase securities from or sell securities to another investment fund or a managed account managed by the Manager or an affiliate of the Manager; and
- engage in in-specie transfers by receiving portfolio securities from, or delivering portfolio securities to, a managed account or another investment fund managed by the Manager or an affiliate, in respect of a purchase or redemption of units of the Fund, subject to certain conditions.

At least annually, the IRC reviews the Related Party Transactions for which they have issued standing instructions. The IRC is required to advise the Canadian securities regulatory authorities, after a matter has been referred to or reported to it by the Manager, if it determines that an investment decision was not made in accordance with conditions imposed by securities legislation or the IRC in any Related Party Transactions requiring its approval.

Custodian

CIBC Mellon Trust Company is the custodian of the Fund (the *Custodian*). The Custodian holds all cash and securities for the Fund and ensures that those assets are kept separate from any other cash

or securities that the custodian might be holding. The Custodian also provides other services to the Fund including record-keeping and processing of foreign exchange transactions. The fees and spreads for services of the Custodian directly related to the execution of portfolio transactions by the Fund are paid by CAMI and/or dealer(s) directed by CAMI, up to the amount of the credits generated under soft dollar arrangements from trading on behalf of the Fund during that month. All other fees and spreads for the services of the Custodian are paid by the Manager and charged to the Fund on a recoverable basis. CIBC owns a 50% interest in the Custodian.

Service Provider

CIBC Mellon Global Securities Services Company (*CIBC GSS*) provides certain services to the Fund, including securities lending, fund accounting and reporting, and portfolio valuation. Such servicing fees are paid by the Manager and charged to the Fund on a recoverable basis. CIBC indirectly owns a 50% interest in CIBC GSS.

Renaissance Global Small-Cap Fund

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the period ended February 29, 2020 and August 31 of any other period(s) shown.

The Fund's Net Assets per Unit¹ - Class A Units

	2020	2019	2018	2017	2016	2015

From capital gains	—	—	—	—	—	—
Return of capital	—	—	—	—	—	—
Total Distributions³	\$ —	\$ —	\$ —	\$ —	\$ —	\$ —
Net Assets, end of period	\$ 25.66	\$ 25.77	\$ 26.41	\$ 19.35	\$ 17.97	\$ 17.90

¹ This information is derived from the Fund's audited annual and unaudited interim financial statements.

² Net assets and distributions are based on the actual number of units outstanding at the relevant time. The total increase (decrease) from operations is based on the weighted average number of units outstanding during the period.

³ Distributions were paid in cash, reinvested in additional units of the Fund, or both.

Ratios and Supplemental Data - Class A Units

	2020	2019	2018	2017	2016	2015
Total Net Asset Value (000s)⁴	\$ 18,445	\$ 17,654	\$ 20,126	\$ 8,111	\$ 8,480	\$ 11,254
Number of Units Outstanding⁴	718,791	685,063	762,217	419,251	472,009	628,569
Management Expense Ratio⁵	2.49% *	2.50%	2.50%	2.80%	3.11%	3.10%
Management Expense Ratio before waivers or absorptions⁶	2.68% *	2.86%	3.11%	3.87%	4.46%	4.31%
Trading Expense Ratio⁷	0.16% *	0.14%	0.13%	0.07%	0.23%	0.20%
Portfolio Turnover Rate⁸	8.65%	43.82%	37.92%	25.32%	123.87%	72.08%
Net Asset Value per Unit	\$ 25.66	\$ 25.77	\$ 26.41	\$ 19.35	\$ 17.97	\$ 17.90

* Ratio has been annualized.

⁴ This information is presented as at February 29, 2020 and August 31 of the period(s) shown.

⁵ Management expense ratio is based on the total expenses of the fund (excluding commissions and other portfolio transaction costs), incurred by or allocated to a class of units for the period shown, expressed as an annualized percentage of the daily average net asset value of that class during the period.

⁶ The decision to waive and/or absorb management fees and operating expenses is at the discretion of the Manager. The practice of waiving and/or absorbing management fees and operating expenses may continue indefinitely or may be terminated at any time without notice to unitholders.

⁷ The trading expense ratio represents total commissions and other portfolio transaction costs before income taxes expressed as an annualized percentage of the daily average net asset value during the period. Spreads associated with fixed income securities trading are not ascertainable and, for that reason, are not included in the trading expense ratio calculation. The trading expense ratio includes the fees attributable to exchange-traded funds.

⁸ The portfolio turnover rate indicates how actively the portfolio advisor and/or portfolio sub-advisor manages the portfolio investments. A portfolio turnover rate of 100% is equivalent to a fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a portfolio turnover rate in a period, the greater the trading costs payable by a fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

There is not necessarily a relationship between a high turnover rate and the performance of a fund.

Management Fees

The Fund pays CAMI an annual management fee to cover the costs of managing the Fund. Management fees are based on the Fund's net asset value and are calculated daily and paid monthly. Management fees are paid to CAMI in consideration for providing, or arranging for the provision of, management, distribution, and portfolio advisory services. Advertising and promotional expenses, office overhead expenses, trailing commissions, and the fees of the portfolio sub-advisor are paid by CAMI out of the management fees received from the Fund. The Fund is required to pay applicable taxes on the management fees paid to CAMI. Refer to the simplified prospectus for the annual management fee rate for each class of units.

For Class O units, the management fee is negotiated with and paid by, or as directed by, unitholders or dealers and discretionary managers on behalf of unitholders. Such Class O management fee will not exceed the Class F unit management fee rate.

The following table shows a breakdown of the services received in consideration of the management fees, as a percentage of the management fees collected from the Fund for the period ended February 29, 2020. These amounts do not include waived fees or absorbed expenses.

	Class A Units	Class F Units
Sales and trailing commissions paid to dealers	0.00%	0.00%
General administration, investment advice, and profit	100.00%	100.00%

Past Performance

The performance data provided assumes reinvestment of distributions only and does not take into account sales, redemption, distribution, or other optional charges payable by any unitholder that would have reduced returns. Past performance does not necessarily indicate how a fund will perform in the future.

The Fund's returns are after the deduction of fees and expenses, and the difference in returns between classes of units is primarily due to differences in the management expense ratio. See *Financial Highlights* section for the management expense ratio.

Year-by-Year Returns

These bar charts show the annual performance of each class of units of the Fund for each of the periods shown, and illustrate how the performance has changed from period to period. These bar charts show, in percentage terms, how an investment made on September 1 would have increased or decreased by August 31, unless otherwise indicated.

Class A Units

^a 2020 return is for the period from September 1, 2019 to February 29, 2020.

Renaissance Global Small-Cap Fund

Class F Units

^a 2020 return is for the period from September 1, 2019 to February 29, 2020.

Class O Units

^a 2020 return is for the period from September 1, 2019 to February 29, 2020.

Renaissance Global Small-Cap Fund

Summary of Investment Portfolio (as at February 29, 2020)

The summary of investment portfolio may change due to ongoing portfolio transactions of the investment fund. A quarterly update is available by visiting www.renaissanceinvestments.ca. The Top Positions table shows a fund's 25 largest positions. For funds with fewer than 25 positions in total, all positions are shown.

A note on forward-looking statements

The management report of fund performance may contain forward-looking statements. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates”, or other similar wording. In addition, any statements that may be made concerning future performance, strategies, or prospects and possible future actions taken by the fund, are also forward-looking statements. Forward-looking statements are not guarantees of future performance. These statements involve known and unknown risks, uncertainties, and other factors that may cause the actual results and achievements of the fund to differ materially from those expressed or implied by such statements. Such factors include, but are not limited to: general economic, market, and business conditions; fluctuations in securities prices, interest rates, and foreign currency exchange rates; changes in government regulations; and catastrophic events.

The above list of important factors that may affect future results is not exhaustive. Before making any investment decisions, we encourage you to consider these and other factors carefully. CIBC Asset Management Inc. does not undertake, and specifically disclaims, any obligation to update or revise any forward-looking statements, whether as a result of new information, future developments, or otherwise prior to the release of the next management report of fund performance.
